

FUNKTION-ONE

F215

The F215 is a double 15" bass enclosure which utilises the same bass loading technology as Funktion One's highly regarded F218 and as such has similar performance characteristics. It is pitched higher giving slightly less low end extension but even tighter and punchier upper bass. The F215 enclosure uses the same Funktion One designed 15" driver that is used in the Resolution 2. The F215 can be used to great effect in systems with Infrabass (or Infrabass+Infrahorn) enclosures providing extreme low end extension.

Features:

- Dual 15" enclosure for fast and precise bass delivery
- Funktion One designed drivers
- Sophisticated loading design
- Blends superbly with Infrabass/Infrahorn combination
- Full tourability with integral handles and optional wheels

Driver	Usual Operating Band	Sensitivity (1W at 1m)	Power (rms)	Nominal Impedance
2x15"	50 - 125Hz	105dB	800W	4Ω Total

Please check website for latest system crossover settings

Frequency Response \pm 3dB:	50Hz - 250Hz
Weight (ceramic magnets):	70 kg (154 lbs)
(neodymium magnet):	60 kg (132 lbs)
Construction:	18mm Birch ply
Connectors:	2 x Speakon 4 Pole (NL4)
	(One driver wired pins 1+/- and one on 2+/-)
