

FUNKTION-ONE

RESOLUTION 18

The Resolution 18 bass enclosure has been specifically designed for use in Resolution 4 and Resolution 5 touring arrays where flown bass is required. It is dimensionally identical to its touring R4 and R5 counterparts, incorporates the same integral quick-fly rigging system and uses the same wheelboards. The R18 is a single 18" horn loaded bass enclosure which benefits from our renowned high efficiency loading and F1 designed Neodymium driver, delivering responsive and accurate bass from a small and highly manageable enclosure.

Features:

- Uniquely designed flying bass enclosure
- Sophisticated loading design
- Identical size to Resolution 4 and 5 for easy system integration
- Minimal size and weight
- Funktion One designed Neodymium driver
- Revolutionary built-in flying system
- Includes extremely effective wheelboard
- Optional fine cloth scrim grill in grey or black
- Funktion-One Violet finish
- Simplified R18E version available

Driver	Operating Band	Sensitivity [1W at 1m]	Power [rms]	Nominal Impedance
18"	25 - 114Hz	103dB	450W	8Ω

Please check website for latest crossover settings

Usable frequency range: 45Hz - 250Hz
Weight (without wheelboard): 41 kg (90 lbs)
Connectors: NL4 panel and captive lead in cable recess
